Dispute Resolution

www.kmiintl.com

Construction disputes can be complex and costly. Our dispute resolution and litigation support services provide comprehensive support to resolve disputes at the project level or once litigation is required. Backed by credentialed expertise, we provide clients with successful outcomes when faced with a dispute.

KMI has provided thorough and precise technical analyses of construction claims for owners, architects, engineers, contractors, subcontractors, sureties, and construction attorneys. We have worked on projects that range upward of \$3 billion nationally and internationally.

Services

- Dispute Resolution
- Construction Claims Evaluation
- Schedule Delay Analysis
- Construction Forensic Accounting
- Standard of Care Exposure/Analysis
- Construction Defect Support
- Deposition & Expert Witness Testimony
- Arbitration and Mediation Support
- Troubled Project Turnaround

John Manning

Chairman of the Board & Director of Dispute Resolution

John is recognized across the industry for his detailed analytical abilities. He is frequently called an expert witness to testify in state and federal court. John is the author of *Prevent and Turnaround the Troubled Construction Project – A Guide for Owner Developers*. His understanding of project feasibility analysis, value engineering, appraisal, budgeting, and project management has led to his selection and experience as a project manager on large-scale projects globally.

John Manning and the KMI team are the steady, deliberate, professional team you need to save your capital project from failure. I have had the privilege to know and work with John and the KMI team members for over 30 years in their service to the construction industry and John's role as an expert witness in court. Their construction management skills, as well as their forensic experience, will serve any client well
